# June is upon us!

*My community group and I ran the Sound 2 Narrows 12K to raise money for our friend's the Olson's as they move with their family to Kentucky to train with DTQ (Deaf Teen Quest) for the next two years.*

*Graduation photo with my "family" Dan and Hilary Donohue! I have been so blessed to have them walking with me over the past 5 years and look forward to all that is in store on the journey ahead!*

## **Jumping from graduation into the season of training.**

After graduation I jumped right into working full-time with Youth Missions International. It has been a fun time to jump into as people are going from here to there to everywhere during these summer months. For instance, by the end of this week we will have four staff out at camps doing evangelism and missions training with students and promoting YMI; we will have one in North Ireland; one in Brazil; and one out running sports camps throughout western Washington.

Over the past three weeks I have been learning a great deal about YMI- traveling to Portland, Moscow/Pullman, and Spokane to talk with leaders about our Young Adult program; assisting with the first college training of the summer as we prepare to send six young adults to southeast Asia, South America, and Europe; and being in the office as the World Cup kicked off. As I am journeying with YMI I am more and more realizing who I am and how my experiences, skills, and education leading up to this point have prepared me for work in the missions realm- specifically in the training aspect.

Keep checking in to stay up to date on what is happening this summer with YMI and the other fun things of the summer- weddings, adventures, and more!
